

# BEN ALTMAN

7201 AZTEC HILL, MISSISSAUGA, ONTARIO, L5W 1K2

(416) 659-4702 BENALTMAN.AT@GMAIL.COM HTTP://WWW.BENALTMAN.CA

## EDUCATION

### University of Guelph

*Masters of Science, Applied Computer Science*

2007-2013

- Focus in Human-Computer Interaction

*Honours Bachelor of Arts, Computer and Information Science*

2003-2007

- Focus in Information Systems & Human Behaviour
- Minor in Marketing Management

## WORK EXPERIENCE

### BlackBerry

*User Experience Designer*

2014-Present

- Interaction Designer for 8 BlackBerry Android applications, including the iconic Hub, Keyboard, and Universal Search.
- Led design effort for future concepts, including internal exploration and external research processes.
- Worked closely with development and product teams to plan design sprints, understand goals and feasibility, and reduce churn.
- Managed wiki for internal sharing and coordinated completion of outsourced work.

*UX Program Manager*

2011-2014

- Lead UX coordinator and contact for the entire BB10.2 software release.
- Provided UX guidance, review and approval on 30 projects, reducing risk of designer burnout and the need for outsourcing.
- Represented UX leadership at weekly cross-functional meetings, proactively addressing potential issues and concerns.
- Led validation sessions for each project, improving adherence to specifications and reducing need for test resources.
- Streamlined tracking of work by coordinating a specialized JIRA project, eliminating multiple competing report methods.

*Usability Analyst, Associate*

\*2008-2011

- Responsible for user research on 8 projects. Research activities included cognitive walkthroughs, hardware usage sessions, competitive reviews, task-driven user sessions and open-ended experience surveys.
- Constructed personas and conducted heuristic evaluations for both internal and external design deliverables.

## StormHunters MUD

*Administrator, Programmer and Content Developer*

2006-2014

- Designed and created new worlds to retain and attract players.
- Expanded and improved upon code developed by several generations of programmers.
- Implemented a new Web site and forum for community feature discussions and input.

### SKILLS AND CAPABILITIES
